Due to the dynamic changes of society and customers' lifestyles, Hekmat Nab is constantly trying to update the design of its products. Using professional and committed designers, this brand creates modern designs that represent the current society well, paying special attention to aspects such as shape, color and small details.

Cellophane is a multi-purpose chemical that is used in industry as a stable, multi-functional and widely used material. This chemical compound has unique physical and chemical properties that have made it a main tool in the production and processing of industrial products.

4

Nylox is the same heavy polyethylene film that is mostly used in the form of store-bought plastic.

For Nylox, the following products can be examples:

Disposable table

Roll garbage bag

Shop nylons

freezer bag

Nylox printed pedals

single-use glove

Light polyethylene is called "nylon" by most colleagues and consumers.

The following items can be mentioned from Hekmat Nab nylon products:

Greenhouse nylons

Legume nylon

Nylon shearing

Printed nylon with straps

Bubble wrap
